

The Village of Oak Lawn Regional Water System is upgrading and expanding its ability to provide Lake Michigan water to the residents of the Southwest Suburbs. As part of these improvements, a new Transmission Main and Intake Structure will be constructed within the area bordered by 151st Street, Catalina Drive, Wheeler Drive / ComEd right-of-way and Liberty Park / Raintree Drive.

The majority of the work will consist of installing a pipeline six feet below grade at the locations detailed below. A concrete intake structure containing water meters and distribution piping will be located in Liberty Park.

Transmission Main will be installed in the roadway at the following:

STREET	FROM	TO
Thistlewood Drive	Raintree Drive	300 Feet West
Raintree Drive	Thistlewood Drive	Wheeler Drive
Wheeler Drive	Raintree Drive	South 82nd Avenue
South 82nd Avenue	Wheeler Drive	ComEd Right-of-Way
ComEd Right-of-Way	South 82nd Avenue	Catalina Drive

Transmission Main will be installed in the ComEd Right-of-Way South 82nd Avenue to Catalina Drive with potential impacts to residents on:

ComEd Right-of-Way along:	Anne Drive	Primrose Court
	Tulip Court	Orchid Court
	Sunflower Court	Halesia Court

There will be a Public Information Meeting held at Orland Park Village Hall on Thursday, November 2, 2023 from 6:00 p.m. to 7:30 p.m. A presentation will begin at 6:15 p.m., and plans will be available for review with some time for Q&A. The construction of Orland Park Spur Two Main will begin on November 13, 2023.
